Empathy Map Canvas

Description

The Empathy Map helps the team understand the needs, thoughts, emotions, and challenges of users who want to browse and purchase books online. By understanding the user's perspective, the team can design a bookstore application that is simple, efficient, and user-friendly.

Content for the Empathy Map

User

Student / Reader / Book Enthusiast

Says

- "I want to find books quickly."
- "I need affordable books."
- "The checkout process should be simple."
- "I prefer a secure website."

Thinks

- "Is this book available?"
- "Can I trust this website?"
- "Will my payment and personal information be safe?"
- "Can I easily search by category or author?"

Feels

- Excited to discover new books.
- Frustrated when books are difficult to find.

- Happy when recommendations match interests.
- Confident when the website is secure and easy to use.

Does

- Searches books by title or author.
- Filters books by category.
- Adds books to the shopping cart.
- Logs in and places an order.

Pain Points

- Difficult navigation.
- Slow search process.
- Limited filtering options.
- Complicated registration or checkout.
- Lack of organized book categories.

Gains / Needs

- Fast and accurate search.
- Easy navigation.
- Secure authentication.
- Organized categories.
- Smooth checkout experience.
- Responsive interface.
